

Impartiality Statement

At DEEP SEA take the integrity of all our qualifications very seriously, and as such have a duty to ensure their integrity and impartiality, and also that there are no conflicts of interest in our qualifications and certifications schemes.

DEEP SEA has designed specifications, policies and procedures to prevent the professional and personal interests of the directors, employees and associates from influencing their duties in the development, delivery and award of qualifications in accordance with any relevant regulatory criteria.

We have identified and assessed risks that may result in a conflict of interest or pose a threat to impartiality. Any conflict of interest is reported, documented in a conflict of interest register and reviewed by DEEP SEA.

DEEP SEA's policies and procedures are reviewed on an annual basis and form part of the director's annual statement of compliance to the appropriate qualifications regulators.

In this way, DEEP SEA ensures that all activities undertaken throughout the certification process are conducted in an independent and impartial manner and aim to inspire confidence in our qualifications and certification schemes to our customers and the public at large by:

- the quality and competence of its personnel
- offering high standards of customer service;
- our integrity and transparency of processes
- maintaining and protecting confidentiality
- Never knowingly enter into an agreement for the provision of certification where impartiality is threatened.
- Never knowingly enter into an agreement for the provision of certification without a formal declaration of impartiality.
